Regulatory Issues

New State Aid Initiatives School Lunch Program

Enrolled House Bill 4498 was signed by Governor Engler as Public Act 119 of 1999 on Monday, July 19, 1999. In addition to refining the state school aid provisions that were already in place for the 1998-99 and 1999-2000 fiscal years, Public Act 119 includes the school aid appropriations for 2000-2001. Included in the Act is a new provision designed to ensure that **K-12 public school districts are reimbursed for 6.0127% of the cost of the mandated school lunch program, as required by *Durant v State of Michigan*.** This funding is provided in a new section of the State Aid Act, **Section 31d**. A total of \$13,227,500 is allocated for FY 99 and \$6,963,000 is allocated for both FY 2000 and FY 2001. The amount allocated for FY 1999 includes sufficient funds to reimburse districts for FY 1998 as well. The computation of the amount due will be made pursuant to methods adopted in *Durant v State of Michigan*. Payments made under 31d are in addition to payments made under the Department of Education budget (State Supplemental Lunch Payment (5 & 2) and State Match), and the \$10 per eligible pupil amount paid under Section 31a(5) At-Risk Pupils. The sum of these four amounts must meet or exceed the 6.0127% figure required by the Court.

The 1998, 31d payment was calculated and submitted to the Office of State Aid and School Finance for payment. It was be paid as a lump sum, as part of the August 20, 1999 State Aid payment. Districts eligible for funding under this section will see two new categorical line items listed under the "ALLOWANCE" section on the State Aid Financial Status Report. Payments for both FY98 and FY99 have been made as a lump sum payment with the August 20th payment and are identified on the status report as **"31d 1998 SCHOOL LUNCH"** and **"31d SCHOOL LUNCH"**, respectively. The amounts are identical for both years because the FY 1998 payment

has also been used as the *estimate* for FY99, as it will for FY2000. *Estimated* payments for Section 31d, for Fiscal 2000 will be paid in 11 equal installments. The estimated figures will be adjusted next year as various cost and payment reports become available.

State Aid status reports should be reviewed to ensure that payments for 31d are properly credited to the school meals account. It is important to note that Section 31d funds are not a Durant settlement payment. They are categorical state aid restricted to the mandated school lunch program. Therefore, section 31d funds must be used exclusively for the mandated school lunch program. Funds may be used for general school lunch operations including purchase of new food service equipment such as freezers and refrigerators, serving area signage (menu display boards, etc.), redesign of kitchen and serving area, point of service software and hardware and other technology for the school lunch program. Additionally, Section 31a(5) "at risk" payments for both school lunch and school breakfast must be backed out of the total payment for "at risk" and credited to the school meals account. Funds earmarked for school food service from 31a(5) can be calculated by multiplying \$10 times the adjusted free meal count (column h), for both breakfast and lunch, from form FS-4731-C (Section 31a, Section 36 and Title I Count of Membership Pupils Eligible for Free Breakfast, Lunch, or Milk).

Note: If a K-12 public school district has already received 6.0127% of their school lunch cost in a given year from the state supplemental lunch payment, state match, and 31a(5) state aid funding sources, that district will not receive a 31d state aid payment. Public school academies, Intermediate School Districts, K-6, and K-8 school districts are not mandated to provide lunch to enrolled students. As a result, they are not eligible to receive the 31d state aid payment.

STATE PAYMENTS

We are planning to issue state payments in September and October 1999 for the prior (1998-99) school year. The first payment will be the ***Supplemental Lunch Payment*** (5 & 2), the second will be the ***Supplemental Breakfast Payment*** and last will be the ***State Match Payment***. Not all schools qualify for the first two payments. Only public schools are eligible to receive these payments which relate to per meal costs reported on the Year End Report. All School Lunch Program participants receive the *State Match Payment*. Status

reports detailing the type of payment and amount will be sent prior to the warrant being issued.

DUPLICATE PAYMENTS

If you received a memo as one of the school districts that received a duplicate claim payment in early July, please be aware that your upcoming payments will be affected. The overpayment will be recouped from any school lunch payments going out, including state payments as well as regular federal claim reimbursement payments. If you did not file any claims during the summer, the state payments would be the first to be affected, followed by the September claim payment.

New National Daily Attendance Factor

Effective with the October, 1999 Claim for Reimbursement, the new national daily attendance factor is 91.6%.

School food authorities must continue to document any reported TOTAL MEAL SERVINGS that exceed 91.6% of enrollment multiplied by days served. The same documentation is required for FREE MEALS and REDUCED PRICE MEALS that exceed the established attendance factor (multiply number of reported Free and/or Reduced applications by number of days served by 91.6%). Reimbursement claims exceeding the 91.6% factor, submitted without documentation, will not be paid.

The documentation that must be provided is the pink SL-200 form, *Justification for Exceeding the National Attendance Factor*. This form must be sent in each time a site exceeds the attendance factor for a given month. The "Overclaim" box on the MEIS screen must also be clicked on (checked).

Exception: When it is known that the factor will be exceeded for consecutive, multiple months of the year, check the "School Year 1999-2000 Justification" box on the top of the SL-200 form. This will cover that site for the remainder of the fiscal year or until you notify us of a change. The "Overclaim" box on the MEIS screen will be checked automatically. Unless there is a change, no additional forms will need to be submitted for the rest of the fiscal year.

All individual school buildings are required to report enrollment every month. Be sure to report the number of enrolled children in all grade levels, including kindergarten, for each building.

Food For Thought

MEIS REMINDERS

Passwords

Passwords used to access the MEIS system expire every 90 days. This means that for a lot of you using the system for the first time since your May/June claim entry, a screen will appear that says "Your Password has Expired!". On this same screen, there are two blank boxes in which you are to enter a new password. The second entry verifies the first one. The password must contain at least 6 but no more than 10 characters, and can be numeric, alphabetical, or both. It must be different than your current password. The system is case sensitive so you have to remember whether you have entered letters in upper or lower case. For ease in recall, it is a good idea to use the same case for both your password and Login Account, if it includes alphabetical characters. After entering the new password twice, scroll down and click on the button that says "Process Changes". You will automatically enter the system and your new password will now be functional.

If a staff member has been issued a Login Account and is no longer employed in a position requiring access to MEIS, your ISD should be contacted. That account will be expired and a new one issued to the current staff member who will be accessing the system.

New Fiscal Year

Beginning with the October, 1999 claim, you will need to select the new fiscal year 2000 option on the MEIS Home Page. The September claim will be the final one to be entered for fiscal year 1999. If you have the current fiscal year Login screen bookmarked, before entering October claim data you will need to go to the MEIS Home Page at:

<http://www.mde.state.mi.us/meis>

and click on what will be the new first option: fiscal year 2000 (October 1, 1999 through September 30, 2000). That will allow you to access the Login screen for the new year.

August/September Claims for Reimbursement

If your school served meals for 10 days or less in August, you do not need to submit an August claim. Combine August and September claim data and submit both on your September claim form. If meals were served more than 10 days in August, a separate claim must be submitted for that month.

MEIS List Server

The Michigan Department of Education (MDE) has set up an electronic mailing list (*Listserve) to assist in communication with schools and others submitting data to MDE via the Education Data Network (EDN) and/or the Michigan Education Information System (MEIS). This mailing list will help us keep you informed of the latest news about EDN and MEIS. For more information on how to subscribe go to:

<http://www.mde.state.mi.us/meis/listserv.shtml>

Off to a Healthy Start

Michigan State University Extension (MSUE) has just the thing to get students and their families off to a healthy start as the school year begins. Enclosed with this newsletter are two camera-ready educational pieces that are perfect for the back of school lunch menus. September is food safety month and therefore a great month to use "Lunch Packing." Of course, any month is a good month to "Focus on Fruits and Vegetables!" These camera-ready educational pieces may be reproduced on the back of school lunch menus or as desired to promote healthy eating and food preparation habits and MSU Extension programs.

Michigan State University Extension has a variety of food, nutrition and health education programs for families and youth. For more information on programs, contact your county MSU Extension office. The telephone number is listed under county government in your telephone book.

Cook It Safely

"Cook It Safely" is the theme for September, National Food Safety Education Month. Together USDA and FDA are joining to invite you to participate in celebrating this year's theme to educate the public about safe food preparation.

School food service directors will soon receive the "Cook It Safely" Consumer Education Planning Guide and "Cook It Safely" poster for your school cafeteria. The poster features FDA's minimum internal temperatures based on the latest Food Code. Included in your package is a fact sheet on egg food safety.

The Planning Guide for Food Safety Educators is available now on www.FoodSafety.gov/September (It's No. 3) Check out the Contents page for ideas to promote National Food Safety Education Month. Included is a sample proclamation for local use, sample press releases, sample logos and artwork, and many brochures, puzzles and games to help support your school cafeteria/classroom or local community event! Start now!

Pass this information on to other educators and team up! Let USDA/FSIS know your plans! And give them your feedback! Send your comments to:

Nutrient Menu Planning Software

Are you considering purchasing Nutrient Standard Menu Planning (NSMP) Software and need more information? A chart with information about each of the approved NSMP software programs has recently been posted to the Healthy School Meals Resource System Web site. Visit or download the "Comparison of Approved Nutrient Standard Menu Planning Software Programs chart" at <http://www.nal.usda.gov:8001/Software/softchar.html>

New Virtual University Courses Offered

There are three virtual university food safety issues courses offered at Michigan State University for Internet attendance.

Information on each course can be accessed at the URL listed after the course description. Registration for the courses can be done over the Internet with payment by credit card if desired.

>

Emerging Food Safety Issues in the Food service and Retail Markets (FSC 891) August 30 to December 17, 1999 Registration open now. This graduate level course is especially designed for those with responsibility for local, national, or international food operations and MS/PhD candidates in food science, food service, or related areas. Enrollment for this 3 credit course is through the MSU Lifelong Education Office with course fee of 687.75 plus some MSU fees. This course would qualify for ADA CEU's on a graduate level. FSC 891 focuses on food safety issues identified by the multi-university instructional team of food professionals and includes the latest information in food microbiological epidemiology, national and international food law, irradiation, and retail and institutional food concerns in relations to issues of safe food supply. All material will be available on the Internet. Students can start August 30 with first lecture material offered September 7. <http://www.vu.msu.edu/preview/fsc891/>

Critical Food Safety Issues in the Food service and Retail Markets (FSC 490) August 30 to December 17, 1999 Registration open now. This undergraduate level course (3 credits) is designed for those with responsibility for local, national, or international food operations wishing continuing education opportunities in food science, food service, or related areas. Enrollment for this 3 credit course is through the MSU Lifelong Education Office with course fee of \$100.00.

FSC 490 focuses on food safety issues identified by the multi-university instructional team of food

professionals and includes the latest information in food microbiological epidemiology, national and international food law, irradiation, and retail and institutional food concerns in relations to issues of safe food supply. All material will be available on the Internet. This course covers the same material as FSC 891 with less time commitment expected. Students can start August 30 with first lecture material offered September 7. <http://www.vu.msu.edu/preview/fsc490/>

Legal and Scientific Aspects of Food Irradiation (FSC IRRA) This is a 4 week course offered October 25, 1999 to November 19, 1999. Registration is to be completed by October 15, 1999. This course will examine the legal and scientific issues regarding the use of food irradiation as a food safety tool in Y2K. The course is targeted toward food scientists and food service and medical health professionals who are interested in learning about this novel and recently approved food processing technology. The legal aspects of irradiation may be of specific interest to regulators, quality control managers, and food lawyers. Enrollment for this 4 week course is through the MMSU Lifelong Education Office with course fee of \$99.00. <http://www.vu.msu.edu/preview/fsc-irra/>

Attached to this *Food Scoop* are updated versions of

Nutritional Facts on Processed Foods and Processed Products and Meal Equivalents for School Year 1999-00. Please note significant changes in some of the meal equivalents from previous years. Information on new processed items will be printed in Food Scoop as the items become available. Also attached is a list of the **Expected Commodities School Year 1999-2000.** Items listed are subject to availability. USDA has already canceled the orders placed for canned peas because of crop failures. Please call us or send an e-mail with you questions and/or suggestions.

Master contracts for 1999-2000

The following list of processors have been approved for the 1999-2000 school year. These processors will backhaul the commodity(ies) indicated from your school

or if prior arrangements have been made, from TLC or Northern Warehouses. Your district must sign an addendum to the agreement between the State and the processor. TLC and Northern will be notified of signed addendums. For more information about specific processed items available and individual processors terms contact the processor or their representative.

Commodity Order Re-Engineering (CORE)

The CORE committee submitted their recommendations and proposals to transform the USDA commodity ordering procedures. We recommend you take the time to check out their report on the USDA Web page. The address is www.usda.gov/fcs/food/fd2000/fd2000.htm. USDA is open to our suggestions on the best ways to implement improvements. They need to hear your concerns on how potential changes would impact your district. Please call us and or USDA with your questions,

thoughts and suggestions.

EXPECTED COMMODITIES SCHOOL YEAR 2000

COMMODITY

EXPECTED DELIVERY

Vegetables:

Salsa	September
Tomato Paste	September
Beans, Green	October
Peas, frozen	November
Spaghetti Sauce	December
Corn, canned & frozen	December
Carrots frozen	December
Tomato Sauce	January
Tomatoes, diced	March

Fruits:

Pears, sliced	August
Apricots	September
Pineapple tidbits	October
Peaches, cling, sliced	October
Peach cup, frozen	October
Fruit Mix	November
Pears, halves	November
Apple slices	December
Applesauce	December

Potatoes:

Wedges	August
Rounds	October
Oven fries	November

Meats:

Ham Frozen	October
Chicken, frozen diced	November
Turkey roasts, cooked, sliced, SOC	December
Beef ground	Continual availability expected

Cheese, sliced	September, November, February
Cheese Mozzarella	September, December, April

Other items expected with no ship dates yet:

Turkey, ground	Turkey roasts	Turkey hams
----------------	---------------	-------------

The following commodities should be available on a continual basis:

Flour AP	Flour Bread	Flour Bakery Mix	Macaroni
Oats	Peanut Butter	Spaghetti	Solid Shortening
Rice	Rotini	Liquid shortening	Vegetable Oil

This list is based on commodity offerings to the states by the USDA as of August 16, 1999.

Other items may be available, and all are subject to change due to market conditions. Fresh produce expected includes apples, oranges, snack carrots and potatoes, among others.

**PROCESSED PRODUCTS
AND MEAL EQUIVALENTS
School Year 1999-00**

Items are listed by processor. Portion size and equivalent information was provided by the processors.
